Disclaimer

The computer systems are owned by the school and are made available to staff, students and community learners to support and enhance education.

Mortimer Community College will endeavour, wherever possible, to provide a safe and secure environment for its users. However please be aware that we cannot guarantee complete safety from inappropriate material. The responsibility must lie with each individual to use ICT in a safe, sensible and responsible way.

This agreement has been drawn up to protect all parties. Anyone who fails to comply, or who acts in a way which may be deemed inappropriate or irresponsible, may lose access rights to the school computers. In the case of pupils, parents/carers may be informed. In exceptional circumstances, where there are reasonable grounds to suspect that a user has committed a serious criminal offence, the police will be informed and a criminal prosecution may follow.

Monitoring

Our school monitors all student and staff devices including tablets. Mortimer Community College uses Securus Full Monitoring Service to do this. This software is managed by a team of safeguarding experts who monitor, analyse and alert the school to any potential incidents of concern 24/7. This approach to online safety ensures that ALL school devices are constantly monitored and incidents of concern are recorded and key school staff alerted. The Securus software also includes a real time dashboard reporting suite for in-depth analysis of captured incidents.
